My husband and I are recent subscribers to XM Radio.... we are happy to pay their fees because they offer such a wonderful selection of music and it's commercial free! We live in a remote area and can't get clear signals - XM Radio has been a blessing. We don't think you should consider them a threat to other broadcasters, especially since we as listeners are willing to pay for this privilege. Please reject the NAB's petition 04-160 and don't let them influence what XM's subscribers are allowed to listen to.... this is clearly a violation of First Amendment Rights!!
